

# THE POWER OF A POSITIVE TEAM WORKSHOP

BUILD A STRONGER TEAM

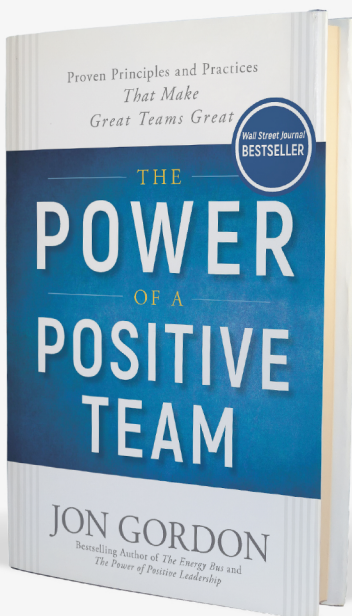

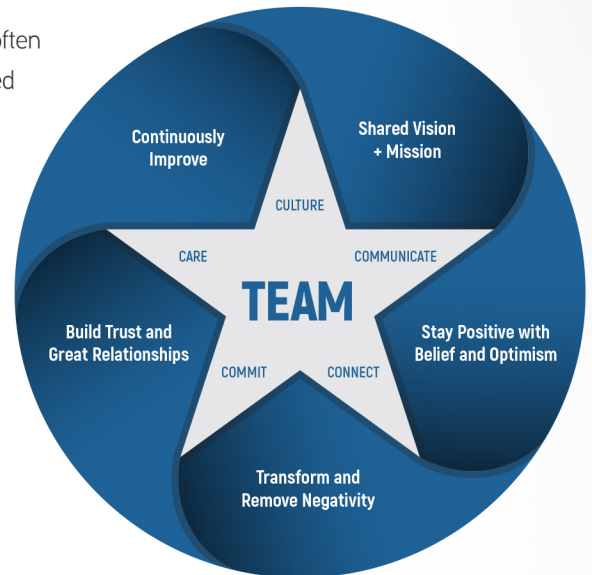

THE JON GORDON COMPANIES

## WE ARE BETTER TOGETHER.

Negativity and a lack of communication, connection and commitment too often sabotage a team's mission and performance. That's why our workshop is designed to help teams become more positive, connected and committed. During our workshop session you will learn the principles and practices that transform negativity, improve communication, build trust, generate clarity and enhance your team's creativity, grit and performance.

The Power of a Positive Team Workshop is an interactive program, facilitated by a JGC Certified Workshop Leader, who will share a proven model put into practice by various teams such as, the Los Angeles Rams, Dell, Snapchat, and Southwest Airlines.

## CREATE UNITY • BUILD TRUST • OVERCOME NEGATIVITY

### Your Team Will:

- Review the principles, practices and characteristics that make great teams great and identify what your team must do to improve and grow together.
- Discuss the importance of a shared vision and greater purpose.
- Learn strategies to maintain optimism through adversity.
- Assess your team's level of communication and connection and make immediate improvements.
- Discuss practical solutions to confront, transform and remove negativity from your team.
- Engage in conversations that build trust and enhance your team's creativity, accountability and performance.
- Discover how positive discontent and positive conflict will help your team continuously improve and pursue greatness together.
